DISTRIBUTION STEERING GROUP

MARINE CORPS TACK-ON

26 April 2007

Mr. Carl Marchetti
LPD

USTRANSCOM UPDATE

- **Distribution Steering Group (DSG)**
  - 06/GS-15 Level Functional/IT Working Group
  - Membership includes:
    - USTRANSCOM
    - DLA
    - Joint Staff
    - OSD
    - COCOMs
    - Services
  - Joint Chairmanship between USTRANSCOM Distribution Process Owner (DPO) and DLA
    - Partnership initiative to improve DoD Distribution
    - Single clearinghouse to develop distribution solutions
    - Single venue to vet issues with the Distribution Transformation Task Force (DTTF)

Issues

- Distribution Portfolio Management (DPfM)
  - July 2004, TRANSCOM Designated as Distribution Portfolio Manager
  - Allows DPO to make strategic level systems decisions
    - To develop, modify, or terminate IT systems
    - Based on architectures, risk tolerance levels, potential goals and performance
    - Oversees family of IT systems review in conjunction with Services' desire to develop, modify or terminate
  - DPfM ensures DPO has appropriate IT capabilities to perform distribution mission
  - DPfM process is to analyze, select, control and evaluate
- Distribution Portfolio Review Process (DPRP)
  - USMC visit was highly successful
    - Two day conference at HQMC
    - Briefed USMC distribution/distribution related systems

ISSUES

- DPfM Focus Areas
  - Theater Distribution Management
    - Implements expeditionary theater distribution and cargo traffic management capabilities using TC-AIMS II and CMOS.
  - Defense Personal Property System (DPS)
    - One stop source for managing personal property moves
  - Single DOD port operations and manifesting system (WPS/GATES Convergence)
    - Standardizes aerial and seaports
  - Common Operational Picture for Distribution & Deployment (COP D2)
    - Sharing and integration of data across COP D2 family of systems
      - Enhanced views of sustainment, deployment, redeployment activities
      - Single sign-on

INITIATIVES

- Joint Deployment and Distribution Enterprise (JDDE) Community of Interest
- Theater Enterprise Deployment and Distribution (TED2)
  - Common, scalable, tailorable, theater level Joint Deployment and Distribution (D2) Control Capability
- Joint Regional Inventory Material Management (JRIMM)
  - Single inventory within a region
- DOD Automatic Identification Technology (AIT)
  - Enhance transformation by focusing and synchronizing the right mix of AIT and systems
- Single Load Planning Capability
  - Integration of ALPS and ICODES
- Electronic Data Interchange (EDI)
  - OSD JUMP START Funds
